Sharon Baldwin, Assistant Registrar
The Association of Professional Engineers of Saskatchewan
2255 Thirteenth Avenue
Regina, Saskatchewan
S4P 0V6

Re: Application for assessment of academic credentials

Dear Ms. Baldwin:

Thank you for taking the time last week to clarify my understanding of the steps involved in becoming registered as a Professional Engineer.

I am enclosing with this letter the documentation required for assessment of my academic credentials:

- Application for Assessment of Academic Credentials;
- Official Transcript of Academic Record from the University of Saskatchewan (including my B.Sc., M.Sc., and Ph.D. studies);
- Course descriptions for all courses taken during both undergraduate and graduate studies, photocopied from the University calendars of the appropriate years;
- A list of the textbooks used for the courses bearing on the subjects of the compulsory and optional examinations in the Engineering Physics syllabus.

I am also enclosing a cheque for $160.50, payable to the The Association of Professional Engineers, 2255 Thirteenth Avenue, Regina, Saskatchewan.

I trust the enclosed material will permit the Examining Committee to proceed with my application for assessment. If any further material is required from me at present, please let me know and I will be pleased to provide it. I will forward Work Experience Reports covering my postgraduate employment history within the next three weeks.

Yours sincerely,

David P. Steele, Ph.D.

Encls.
