10 October 1995

Mr. Reg Tang
c/o Officer in Charge
Eureka Weather Station
Eureka, N.W.T.
X0A 0G0

Dear Reg:

Please find enclosed a supply of pre-addressed padded envelopes, as well as an extra address label or two. As Albert Maione may have discussed with you already, or will soon (depending on when this reaches you), I would like you to use the envelopes to mail filled data tapes back to me between Albert's trips. The data volume generated by the Polar Camera is such that I would like to stay abreast of the data processing as much as possible, rather than wait for Albert to bring me back several tapes at once from his later trips.

You may already have received a tape change schedule for the Polar Camera, but I enclose a copy for reference. Based on an extrapolated flight schedule, I estimate that you will need five envelopes to send tapes out between Albert's trips. I estimate the mailing schedule as follows:

tape 0 (removed Oct. 24/95): carried out by Albert Maione
tape 1 (removed Nov. 12/95): mail out on Nov. 23/95 flight
tape 2 (removed Nov. 26/95): mail out on Dec. 14/95 flight
tape 3 (removed Dec. 10/95): mail out on Dec. 14/95 flight
tape 4 (removed Dec. 13/95): mail out on Dec. 14/95 flight
tape 5 (removed Dec. 27/95): mail out on Jan. 4/96 flight
tape 6 (removed Jan. 10/96): carried out by Albert Maione
tape 7 (removed Jan. 24/96): carried out by Albert Maione
tape 8 (removed Feb. 9/96): mail out on Feb. 15/96 flight
tape 9 (removed Mar. 4/96): mail out on Mar. 7/96 flight
tape 10 (removed Mar. 20/96): carried out by Albert Maione

Thus, you will need envelopes for five flights. If I hear of flight schedule changes, I will send extra envelopes as needed.

Please contact me at steele@skisas.usask.ca or (306) 966-6447 if you have any questions or comments. Thanks for your help.

Yours truly,

David P. Steele
