The Transition Region Explorer Near-Infrared (TREx NIR) is a joint Canada Foundation for Innovation and Canadian Space Agency project developed by the University of Calgary. TREx NIR is operated and maintained by Space Environment Canada with the support of the Canadian Space Agency (CSA) [23SUGOSEC]. TREx NIR data is openly available. Users must, at a minimum, acknowledge usage of the data using the below citation for the data set. The TREx team welcomes opportunities to collaborate on usage of the data and is happy to assist in all aspects of data processing and/or interpretation.
